## Environmental Policy Statement

With a Masters degree in environmental science, I have a long history of studying and caring for nature. I have carried these principles forward into my Photography and Photo Illustration business.

I do all my promotional printing on FSC certified papers.

Client proofs are provided electronically.

Artwork is printed on bamboo and sugar cane papers.

My website is with Host Papa which uses wind energy.

I drive a hybrid vehicle.

I only utilize rechargeable batteries, and use digital equipment.

Environmentally friendly cleaners are used in my office/home.

I reuse paper as much as possible.

I have done Pro-bono work for a local environmental group.

And I grab a sweater before turning up the heat!

I am working toward making my business completely carbon neutral, and printing with vegetable dyes.

Sincerely,

Penelope Kuhn
